

■ Product Backlog – User Stories

1. User Registration & Input (High Priority)

As a user, I want to enter my name, date of birth, and gender so that I can generate my numerology report.

2. Name Number Calculation (High Priority)

As a user, I want to get my Name Number (based on Chaldean rules) so that I can understand its meaning in my numerology.

3. DOB Number / Luck Number (High Priority)

As a user, I want the system to calculate my DOB sum (Luck Number) so I can see how it influences my life.

4. Moolank Calculation (High Priority)

As a user, I want to know my Moolank (day digit) so I can understand my personality traits.

5. Bhagyank / Destiny Number (High Priority)

As a user, I want to know my Destiny Number (sum of full DOB) so I can learn about my life path.

6. Loshu Grid Generation (High Priority)

As a user, I want to see my Loshu Grid filled with my numerology numbers so I can visualize my strengths and weaknesses.

7. UI/UX Enhancement (Medium Priority)

As a user, I want a clean and attractive light-theme UI so I can easily interact with the system.

8. Report Download (Medium Priority)

As a user, I want to download my numerology analysis as a PDF report so that I can keep it for future reference.

9. User Stories & Documentation (Medium Priority)

As a team, we want to maintain proper documentation and user stories so we can align development with Agile practices.

10. Testing & Validation (Low Priority)

As a tester, I want to test the numerology calculations and UI so that the project is bug-free and user-friendly.

■ Prioritization Table

Task/User Story	Priority
User Registration & Input	High
Name Number Calculation	High
DOB Number / Luck Number	High
Moolank Calculation	High
Bhagyank / Destiny Number	High
Loshu Grid Generation	High
UI/UX Enhancement	Medium
Report Download	Medium
User Stories & Documentation	Medium
Testing & Validation	Low
